

**METHOD AND APPARATUS FOR
CUSTOM MANUFACTURING DECORATIVE, CAST STONEWORK**

ABSTRACT

A method for custom manufacturing decorative, cast
5 stonework. The method includes receiving an order including
at least one drawing of at least one part of a plurality of
parts that comprise a unit, storing the order and referencing
the at least one first part to a database of units and parts,
wherein the least one first part number is associated with the
10 at least one first part. The method then determines if a
suitable unused part exists in inventory. If not, the method
determines if a mold exists. If not, the method manufactures
or buys a mold. If a mold exists and is available, the method
casts the part.
